absorbed over 90% of total 1950 manufacturing employment, with the share of the five leading firms amounting to more than 60%. The five are Granite City Steel Co., Laclede Steel Co., Owens-Illinois, Clin Mathieson Chemical Corp. and Shell Oil Co. Thus, not only is there a high degree of geographic concentration in the manufacturing economy, but also a very high degree of employment concentration within a small number of firms.

"Iron and steel producers and fabricators are dominant in the local manufacturing economy, accounting for 40% of total manufacturing employment. Chemical firms absorb about 38% and oil refineries about 15%. In combination, the steel-chemical-oil groups employ over one-third of all the 70,000 Madison county workers.

"The county's manufacturing and industrial economy, historically its strongest element, continues to gain in strength. Capital expenditure of \$54,900,000 in 1950 was 20% above the amount reported for 1944 and 102% higher than in 1947.

36% Of Total Area Growth
 "As proportions of total St. Louis-Ilinois area capital expenditures, Madison county's 1950 share amounted to 36%, compared with 34.8% four years earlier and 22.8% in 1947.

"In 1950, Granite City Steel Co. completed construction of new facilities at a cost of about \$38,000,000 and a prominent oil refinery recently has increased its output through substantial plant additions. Moreover, some new industries, such as the Propeller Co., set up establishments in the locality.

"For the county as a whole, recent industrial expansion has virtually obliterated the effects of the casualties resulting from removal of such plants as Warner Electric Co. and U. S. Radiator Co.

Mineral Resources
 "Actual and potential importance of mineral resources should by no means be overlooked, although manufacturing is the county's prime economic asset. A very large part of the county is underlain with mineable coal, either proved or strongly indicated.

"From 1882 to 1957, Madison county's coal production totaled 160,500,000 tons; in 1957, nearly 1,000,000 were mined. Also of importance in the local economy is the presence of large coal

Ernst Mueller, 72, Dies; Ill Two Years

Ernst Mueller, 72, of 2442 Lincoln avenue, a retired sausage maker foreman at Madison Packing Co., died about 7:10 a.m. Sunday at St. Elizabeth Hospital where he had been a patient about 18 hours. He had been ill with a heart ailment for about two years.

Mr. Mueller, who retired seven years ago, was a native of Germany and lived here 36 years, moving to Granite City from St. Louis. He was a member of Sacred Heart Catholic Church.

Survivors are his wife, Sophie; two sons, Gerhard Mueller, a former justice of the peace, and Helmut Mueller, of Granite City, and two grandchildren.

Funeral arrangements are given in today's obituary column.

Auto Demand To Rise
 "During the immediate future, however, will reflect the inter-action of the generally stable demand for non-durable goods and the adjustments already underway in durable goods. Recent nationwide surveys indicate that such adjustments, and thus any overall contraction, are expected to be moderate.

"A fairly high level of automobile production plays an important role in maintaining a corresponding high level of activity among major local manufacturing concerns.

"From all indications, the long-term future demand for motor vehicles will be even greater than in the past. A year or more may elapse before the overall demand for autos begins to equal or surpass peak years of the past."

City Preparing To Issue Warrants In Nameoki Area

Arrest warrants for persons and firms violating the city ordinance prohibiting the emptying of storm water in the Nameoki sanitary sewer system are to be issued in the very near future by the city, it was learned over the weekend.

Locations of violations are about to be pinpointed following a report received last week from the engineering firm of Shepard, Morgan & Schwaab, employed by the city to determine the amount of storm water flow in the lines.

First notification of the planned enforcement of the five-year-old law was made about Sept. 1, when letters were sent to everyone tapped onto the system, advising them of the crackdown. Inspections also were made to determine possible trouble spots and the city began repairs to broken or defective manholes and other points where storm water could enter the system. Some manholes are being sealed to prevent individuals from opening them for runoff of surface water.

Mayer Davis has stated that an engineering survey atreases

the sewers were not designed for handling storm water and that continuous flow of the excess water could be the cause of damage to the lines.

The report received last week from Shepard, Morgan & Schwaab stated that following a two-inch rain on Sept. 24-25, gauges set up in the lines indicated excessive flow at the Fehling road, Faith avenue and Lincoln avenue lift stations.

Edward Juneau, SMS engineer, said the 15-inch line at the Fehling road lift station, which normally has a six-inch flow, registered 10 1/2 feet at the manhole following the rainstorm; while at the Faith avenue lift station, where the 12-inch trunk usually carries two inches of flow and at the Lincoln avenue lift station, where the 12-inch trunk carries about 2 1/2 inches normal flow, there also was excessive storm water. Minimum entry of storm water was recorded at the St. Clair avenue lift station.

The engineer is to continue the study, making periodic reports to the city.

2 Cases Of Attempted Molestation Reported

Two cases of attempted molestation were reported to Granite City police yesterday. Two sisters, 10 and 8 years old, told police they were approached at 23rd street and Grand avenue by a man who made obscene remarks.

The man made no attempt to touch the girls, police were told. They were returning home from church. They said the man had black hair, a nose at his mouth, was of heavy build and was wearing a yellow, short sleeved shirt and blue jeans.

Only a vague description was available for a man who attempted to molest a 12-year-old Granite City boy downtown Sunday evening, after buying him soda, a hot dog and popcorn. The boy reported the incident after he arrived home, police said.

Davis Hopeful Of Fund For Transit Survey

Mayer Davis said today he was hopeful of securing funds from an outside source as the city's \$500 share of the proposed preliminary survey for a unified metropolitan transit system by the U.S. Development Agency.

The mayor declined to reveal the possible source, but plans to present the proposal to the city council in the near future. Community Development Co. declined to advance funds to the city.

All other communities asked to participate in the \$100,000 survey have agreed to advance the funds.

New Membership Store Will Open On Thursday

The newest, and possibly largest, close-door merchandise center in the area will open for business at noon Thursday at 5900 Collinsville road, across from the Fairmont race track.

Known as Sav-Mart, the store will feature 40 separate departments under one roof and is expected to employ between 200 and 250 persons.

Featuring everything from infant's clothing to new autos, the store contains 100,000 square feet of floor space and is fronted by a paved parking lot capable of handling 1500 cars.

It will be operated by Sav-Co, a private corporation whose principal stockholders are Sidney Katz and Sam Pessin of Belleville. Abe Osheroff, Max Lubin and Leroy Kopelow, all of St. Louis.

Operated under an "eligible member only" system, the store will contain a snack bar and indoor playground for children.

The L-shaped fireproof structure is 955x200 feet square, plus a second section whose dimensions are 955x140 feet. It was erected in 70 working days by approximately 150 workmen.

The general contractors were Flasher-Fritsch Design & Construction Corp. of St. Louis.

Tentative store hours will be from noon until 9 p.m. Monday through Friday, from 9 a.m. to 9 p.m. on Saturday, and from noon until 6 p.m. on Sunday.

A ribbon-cutting ceremony will take place at noon Thursday immediately before the store opens its doors for the first time to card-carrying member shoppers.

Water Company Strike Ends: 30-Month Pact

East St. Louis & Interurban Water Co. office workers, who went on strike against the firm Sept. 22, ratified Thursday a new 30-month contract to replace the one which expired Aug. 21.

The new agreement, retroactive to the end of the old contract, calls for a 10 1/2-cent hourly wage increase for the first 18 months, with an additional eight-cent hourly boost for the final year.

The 39 workers, including two at the local office, members of Local 130 of the International Office Workers Union, had been picketing the company's offices in Granite City, East St. Louis and Belleville.

Funeral arrangements are pending at a Granite City funeral home. An obituary is given elsewhere in this issue.

Razing Of Post Office Would Enable Site To Be Beautified

It is vital that downtown postal facilities be continued to serve the retailing industry and offices. But we wonder if it would not be less expensive to obtain a new downtown location once the main post office is completed at 24th street and Madison avenue, enabling the present main building to be razed and the area to be beautified.

The existing half-century-old post office is costly to heat and maintain and no longer is as attractive as in its earlier days. While inadequate as the main office, it probably is larger than will be needed for the downtown branch. An office like the Internal Revenue Service might have been able to use some of the space, but its withdrawal from this area suggests that it might be best to seek razing of the building.

The Chamber of Commerce or Associated Retailers may wish to consider establishment of a mall-type area or landscaped park in the triangular block occupied by the post office. The new memorial fountain a few blocks down Niedringhaus avenue has proven to be a beautiful addition to the downtown scene—a unique landmark. An additional parkway in the midst of the busy business district could prove to be another excellent project.

Fire Prevention A Year-Round Task For Each Local Family

Fire Prevention Week, currently being observed, will be successful if the activities and suggestions reach the attention of a large percentage of Quad-City residents. For prevention of fires cannot be accomplished in one day or week, or by one individual, agency or group, but must be the goal of everyone in the community throughout the year.

Firemen inspect schools, public buildings and commercial structures, but there are many potential fire hazards at each home unless the family constantly guards against them. Ranking among the major hazards are youngsters, who need special instruction in protecting themselves and property from fire.

Remaining Trolley Rails Serve No Useful Purpose

Now that the former trolley tracks are being ripped up from Madison avenue in Madison, it would be a good time to begin planning ways of eliminating the remaining vestiges of the days when street cars regularly traversed Quad-City streets.

The rails have been removed from Main street and most of Broadway in Venice, as well as most of Madison avenue in Granite City, all of 18th street and sections of 19th street and State street. But when the Madison project is completed, a few blocks will remain, forming a picture of incongruity. The tracks no longer serve a useful purpose, and their existence adds to driving hazards in wet or icy weather.

Prevalence Of Illness Challenge To Research

In the fall, when many are afflicted with colds and influenza, attention traditionally turns to thoughts of health. And estimates by the National Health Education Committee indicate that one in every three Americans is confronted with one or more of 18 main illnesses and handicapping conditions. Since many of these are incurable, the total of 62,826,225 ailing or handicapped persons is cited as showing a need for expanded medical research.

Mental and emotional problems head the list, affecting one in every ten people, and the 18th is infantile paralysis, involving one in each 2142. Other disabilities include arthritis and rheumatic diseases, one in 16 persons; diseases of the heart and circulation, one in 18; hearing impairments, one in 30; mental retardation, one in 36; alcoholism, one in 45; cancer, one in 230; cerebral palsy, one in 327; multiple sclerosis and similar illnesses, one in 360; blindness, one in 321; tuberculosis, one in 720; and muscular dystrophy, one in 900.

The statistics on major causes of death and crippling are surprising in the degree of prevalence. Though progressing rapidly, mankind remains a long way from the conquest of illness.

THE PASTOR SPEAKS

REV. JAMES T. BRYANT,
Trinity Methodist Church

"The stone which the builders rejected, the same became the head of the corner."

—Matt. 21:42

In one of Dr. Roy L. Smith's brief sermons he used as his subject, "The Book With Everything Left Out." He told of a bookstore advertising "a complete work of fiction in which the letter 'e' does not appear once."

He stated that the letter "e" appears more frequently in print than any other letter of the alphabet. I glanced at the text and noticed there were fifteen "e's" in the title. Three did not have this letter. The typesetter's case contains all the letters but the little "e" box is twice as large as any other. How then could a complete book be written without using "e"? But it was true. The conclusion Dr. Smith came to was the writer had to leave out "everything."

Many wonderful words and names had to be omitted. Not even "mother" or "father" could be found, Jesus, he said, his father was more accustomed to being left out. Other great words

and expressions of meaning could be left without this important letter. Our great "America" would have no mention. "Hans" our dearest institution would have no place. Not even "love" could be admitted. "Ideas" would be out. And naturally "Jesus" would have no place in such a book. No thought of "heaven" would appear. All this causes us to ask, what kind of a book would this be?

But wouldn't such a book be parallel with the thinking of many folk when they think they can leave Jesus out of their lives? No man can be at his best without God. Then why so many try? It is like the book with "Everything" left out. The best comes by accepting Jesus as the Son of God and our Savior. Then life has meaning with all the characteristics of goodness.

At first glance you might think it would be easy to write a book without the letter "e," but just try it. Too many are thinking they will live their own lives. God will not be considered. However, when the end comes: it will be like a book with "everything" left out. No happiness, no hope. Please don't try it.

Veeder Re-nominated For State Chamber Board

Membership voting on the 36 men nominated or re-nominated for board positions will take place Thursday, Oct. 13, when the chamber opens its two-day 43rd annual meeting in the Palmer House, Chicago.

Madison's Unheralded Trojans Dump Dupo, 18-0; Move Into First Place

Known to possess an explosive offense but thought to have only a mediocre defense, Madison's unheralded Trojans blanked favored Dupo 18-0 Friday night in Tiglerland and moved into sole possession of first place in the Midwestern Conference with a 2-0 record.

Coach Glenn "Pete" Pickering's defensive unit started slow this year and only began to jell a week ago when they white-washed Cahokia 20-0. The Trojans held Cahokia's Comanches to a net 89 yards and against last year's conference co-champion Tigers, Friday night, they stubbornly relinquished a net 122 yards to Dupo. Defense was not the only key to Madison's most recent success as they unveiled a balanced attack against Dupo which featured 101 yards in the air and 208 yards gained on the ground. Fullback Terry Anderson, who lost on the second play Madison had the ball and raced 44 yards to paydirt. The Big Green failed on the first of three extra point attempts and led 6-0 with 8:25 remaining in the first quarter.

Petty Scores
Madison's second score came later in the same period when Ed Petty romped over the goal line from 18 yards out on a fourth-and-nine situation. Dupo came roaring back as they moved the ball to Madison's 25 with the aid of a 15-yard penalty against the Trojans, their only one of the night.

With a first down on the Trojans 25, Dupo quarterback Ron

Trims Off 40 Pounds

Weight-Losing Steps Help Ridings Win Berth On ISNU Football Varsity

The decision to trim down his rather hefty bulk by some 40 pounds is credited by a Granite City high school graduate, Bill Ridings, as the major factor in his making the varsity football squad at Illinois State Normal University this fall.

Ridings, a freshman, is one of very few players to crack the 40-man traveling squad for the Redbirds as a first-year student, in this or any other season.

Winner of honorable mention at both guard and tackle on the 1960 Press-Record All-Southwestern Conference football team, he graduated from GCHS in June, weighing about 240 pounds.

But he took a physically-taxing summer job, once he was aware that the loss of some of his bulk would increase the former GCHS student body president's chances of making the Redbird varsity.

Now Weight 200
Down to 200 pounds two weeks ago, he got his baptism by playing in all four quarters of the Redbirds' home opener against Millikin University. The Birdies dropped their 22-16 in a driving rainstorm, but came back the next week to defeat Eastern Illinois University 18-0. An interested spectator at that game was Ridings' high school football coach, Andy Sullivan.

Hannan tried a short pass but the center of both lines. The ball was deflected by three players before George Stuart hauled in the pylon on the line of scrimmage.

After an exchange of the ball on punts, Madison started to move in a race against the clock. The Trojans reeled off five first downs and were on the Dupo 14 with three seconds left in the first half. Ken Griggs went around his own right end before being stopped on the six-yard line as the horn sounded.

Trojan Line Holds
Dupo dominated the offensive play in the third quarter as it made five first downs to Madison's one, but the Tigers could score. On the first play of the fourth quarter Dupo had the ball on the Madison three-yard line with fourth down and one yard to go for a first down. Madison's forward wall dug in and held as Dupo sent Fullback Sonny Pratt into the center of the line. Madison took over on downs and that was the time that Dupo threatened to score.

With six minutes remaining in the contest, Petty returned a Tiger punt 15 yards to his own 10. On the first play from scrimmage, Griggs picked up three yards but Quarterback Gravelle was thrown for a four-yard loss on the following play as he was attempting to pass. Then with 5:30 left in the contest, Gravelle took the snap from center, pitched to Griggs who rolled out to his right and passed to Petty in the open — good for 71 yards and the final touchdown.

Dupo attempted four passes

Madison took over possession of the ball. Pickering and Joe Asperger, assistant coach, sent in an entire new offensive unit that ran out the clock.

Coolidge Sweeps Past Kahok Freshmen, 34-0
The Coolidge junior high school Braves, displaying an effective power play, blanked Cahokia's freshman squad in a 34-0 victory Thursday afternoon, 34-0.

It was the third win of the season for the Frank Kraus-John Tomcoff club, and also marked the third time the Braves rolled out to shut out their opposition.

Seven players figured in the first period the longest scoring play, the afternoon. Kraus cited the Coolidge offensive line for its downfield blocking on the play.

Jerry Lybarger went seven yards on a cross-back to open the scoring and added the extra point on a plunge.

In the second period, Mike Mounce scored from 30 yards out on a reverse, with the PAT Mounce scored on a plunge by Ricky Whitsett.

The Braves made their 27-0 at the half when Danny Meece scored on a 15-yard sweep and Debeve played for the extra point.

Jim Reed scored Coolidge's final TD in the third quarter on a 30-yard sweep, and Ray Shelton added the PAT on a plunge. Collinsville penetrated far as the Coolidge 20 only once, that coming in the first quarter.

The Braves will be at home to Madison's freshmen Friday at 4 p.m.

State Jayce Bowling Tourney Here April 15

"Plan it in Granite."
This is the theme the local Jaycees used Friday through Sunday in Decatur at the State Junior Chamber of Commerce convention to win in their bid for the 1962 State Jayce bowling tournament.

Bidding against Granite City for the tournament were Pekin and LaSalle-Peru. The tourney will be held April 15 at the Big Top Bowl and will attract an estimated 500 bowlers here from throughout the state.

Dresses as beatniks, 15 local Jaycees made the trip to Decatur in quest of the tourney. Bob Swiatek was chairman, and accompanying him were Al Barnes, Ed Bodman, Norman Draper, Don Jurgensen, Art Menendez, Boyd Vreutels, Richard Troillet, Bill Wyatt and Jim Ziegler. Five Jayceettes also attended the convention. Accompanying their husbands were Mesdames Barnes, Hogan, Draper, Troillet and Wyatt.

Granite City also bid for and got the Jaycee Junior Sports Jamoree sectional to be held here next July. The local sectional was held in Centralia this year.

Granite City Holds Redbirds 12-12 Draw

Warrior Defense Sets Up Both TD's; Stops Alton On Own 2 As Game Ends

An alert on determined defensive platoon set up both touchdowns Friday night in Alton as Granite City high school's football Warriors struggling to a 12-12 tie in a Southwestern conference game with the Redbirds.

In one sense, it was a moral victory for Coach Andy Sullivan's Redmen, who stood off an Alton thrust in the closing seconds of the game to gain a dead-end with the team which trampled defending SWC champion East St. Louis last week, 13-0.

Edwardsville 3-0

But while the combatants were knocking heads before some 4000 spectators at Public School stadium, unheralded Edwardsville was slipping past Cahillville 20-19 to move into first place in the league with a 2-0 record.

Two TD's in 3 Minutes

In Alton, it took Granite City just three minutes and 11 seconds to hang up 12 points on the scoreboard in the first quarter. Less than two minutes had elapsed when the Warriors stunned the moribund partisan crowd by blocking punter Don Davis' kick at the Alton 23. Defensive End Terry French smothered the bounding ball in the Redbird end zone, and GC led 6-0. Bret Bjorkman's kick for extra point was wide.

A minute later the GC defensive line separated Alton halfback Terry Mitchell and the ball at the Alton 10. Linebacker Bill Buehler, who has a nose like a bloodhound when it comes to locating a loose player, kept Alton from the Warriors on the 10.

Alton Scores

One play later halfback John Allen shot through a good hole in the right side of Alton's defense line to give GC a 12-0 margin. Bjorkman, who got two kickings right at the extra point day to a penalty missed them both.

GC Quarterback Bill Lierman's second fumble of the first quarter set up the Redbirds' first score. Lierman missed connection.

Your family dentist guards your physical health

Your family lawyer can guard your legal health

If you're fond of your teeth, you and your family probably visit your dentist every six months. But how often do you visit your lawyer? Like a cavity, a legal problem often has a way of going undetected until a sharp pain—perhaps a lawsuit or a claim made against the title to your property—brings it to your attention. You probably don't need a six-month legal checkup, but even the simplest contract, tax problem or

lease deserves consideration by your family lawyer. And when you buy a home or other property, your lawyer's counsel will protect your interests at every stage of the transaction. One means of protection he may often suggest is a title insurance policy of Chicago Title and Trust Company—available locally from our representative in your county. Such policies have been protecting the titles of Illinois home owners for 113 years.

A dinner was served at the Rose Bowl for members of the wedding party and family.

The church was decorated

11 Local Girl Scouts Qualify For Roundup

Eleven Granite City Girl Scouts, members of the new River Bluffs Girl Scout council, have completed the basic council qualifications to attend the third annual Girl Scout Roundup in July of 1962. The National Roundup will be held on the shores of Lake Champlain at Burlington Bay state park in Vermont.

Local qualifiers are Pam Bradley, Kathy Bravette, Pam Brinkmeyer, Kathy Hara, Margaret Juhasz, Judy Matras, Linda Osuchowski, Catherine Parker, Norma Rivenburgh, Martha Spengler and Mary Jane Zimmer.

They were elected through a comprehensive program of Girl Scout requirements and training from an original 88 applicants. Only 40 of the 56 selected from throughout the council will actually attend the roundup.

The final selection will be made early in November following further participation in training events. The remaining 16 will serve as alternates, and will receive identical training with the roundup patrols.

Miss Dorothy Hinson, Madison Girl Scout leader, was a member of the council's planning and training committee for the roundup.

A 10-member committee which selected the roundup delegates included Mrs. George Grimm and Mrs. Ovid Sperry of Granite City.

Higher Pitch For Telephone Tones After Wednesday

Quadrant's telephone numbers will get "supranormal" voices Thursday morning.

George Maize, Southwestern Bell Telephone Co. manager here, explained that the dial tone heard when a customer picks up the receiver, the ringing tone heard when the called party starts to ring, and the busy tone heard when the called party's line is being used, will all be slightly higher pitched than at present.

"These changes are actually the sounds of telephone progress in the Quad-Cities," Maize said. Late Wednesday night, new facilities will be replaced by more modern ringing equipment.

The change is being made in connection with the Quad-Cities' conversion to direct distance dialing on Sunday, Oct. 15.

Red Cross Marking 80th Year of Disaster Work

The Tri-City Chapter of the American National Red Cross is joining with other chapters in observance this fall of the 80th year of Red Cross disaster services. Chairman Floyd Mitchell has announced.

The anniversary dates back to the great Michigan forest fire which began Aug. 31, 1881. The nation's official disaster relief agency was only a few months old when it founder, Clara Barton, almost singlehandedly collected supplies and dispatched them to Michigan from her headquarters at the first Red Cross chapter in Danville, N. Y. Mitchell said the fall months were chosen for the observance because of United Fund activity throughout the nation, and the timeliness in relation to hurricanes and other disasters.

Special contributions by the public for the worst disasters have enabled the organization to carry out its Congressionally-chartered responsibilities with the aid of 2,000,000 chapter volunteers and a corps of trained disaster experts who have made a career of aiding people in distress, Mitchell said. Each of the 370 chapters operates a disaster-preparedness program, and outside teams also move in to assist.

When disaster strikes, personnel trained in first-aid, nursing, shelter, feeding and other moves related to mass care enter the disaster area to begin a relief program that later includes assistance to needy families in rebuilding, repairing and refurbishing their homes. The Red Cross works with the Weather Bureau, Office of Civil and Defense Mobilization, armed forces and other governmental and private agencies to maintain coordination of relief efforts.

St. John Church Planning Centennial Commemoration

A two-week home visitation period, beginning Oct. 22, is the initial step planned in the observance of the 100th anniversary of the founding of St. John United Church of Christ here.

Other details of the observance are yet to be completed, but committees are at work on various phases of the program, not the least of which will be the dedication of a new parsonage adjacent to the present St. John sanctuary at 2900 Name old road.

Also being planned are founders' day recognition on Jan. 7, a confirmation reunion, a trip to the site of the original church (Central rural school), and a confirmation banquet.

Specifically, the church will observe its 100th anniversary next June 28.

14 Founders

On that date 100 years ago 14 men met in the woods which was once the location of the Central rural school three miles east of Granite City, to organize a congregation for the German Protestants of the community.

August Brandes served as chairman at the first gathering. William Storek was secretary. Others in the group included August Ruvick, Henry Ruvick, Henry Deering, Henry Harmer, Louis Bruene, John Soehring, Christian Pignatelli, Kahle, Conrad Wolf, Fred Meyer, Christian Burdord and William Harmer.

Confronted with the task of establishing a church during the Civil War period, the group was presented with two acres of land by Henry Ruvick, and in 1863 a church was erected on the site through the donation of \$100 by 156 members of the congregation.

The first pastor was Rev. W. Wilken, and in 1864 the first parsonage was built and three acres of ground purchased for use as a cemetery.

Shortly thereafter, a school teacher was employed and children of confirmation age were required to attend a parochial school.

Former Pastors May Speak

The present sanctuary was completed in 1941 while Rev. Paul E. Schappo, who served the church from 1928 to 1941, was pastor. Rev. C. H. Uhlhalt (1941-1953) was pastor when the church membership voted to erect an educational church school building. Both will be asked here as guest speakers during the centennial observance.

Next Jan. 7, the first Sunday in 1962, the church will honor its 14 founders.

Leonard Bickel is program chairman for the overall observance, serving with the present pastor, Rev. Paul Sturby; Carl Burdord, president of the church; and Mrs. Georgia E. Stille and Oliver Jacobsmeier.

Other committee chairmen will be Dr. E. H. Theis, brother; Homer Huber, pastor; Albert Schrieber, stewardship; and Ivan Relleke, general chairman.

Higher Standards For New Students At SIU

Tightened entrance requirements for freshmen students at Southern Illinois University, Carbondale, show that the largest freshman class in the history of SIU may well be the smartest.

High school graduates in the lower third of their classes are denied full term admission until they can pass a stiff series of examinations. Some 700 new students and a large number of potential transfer students were turned away for this reason.
